EDUCATION

B.Tech in Computer Science and Engineering — Dayanand Institute of Technology, Pune
2022 – 2026 | CGPA: 8.6 / 10

PROFESSIONAL SUMMARY

Final-year Computer Science student with hands-on experience building full-stack and backend applications using Java, Spring Boot, and SQL. Completed a software engineering internship building REST APIs. Comfortable with Git-based workflows and enjoys solving problems around scalable, well-tested systems.

TECHNICAL SKILLS

Languages:	Java, Python, SQL, JavaScript
Frameworks:	Spring Boot, React, Node.js, Express
Tools:	Git, GitHub, Postman, Maven
Databases:	MySQL, MongoDB
Concepts:	OOP, REST APIs, Data Structures & Algorithms

EXPERIENCE

Software Engineering Intern — Nimbus Cloud Solutions, Pune
May 2025 – July 2025

- Built and maintained REST APIs in Java and Spring Boot used by an internal admin dashboard.
- Fixed bugs in an existing order-management module, reducing reported issues by around a third.
- Wrote unit tests using JUnit and helped set up a basic CI check for pull requests.
- Worked with a team of 5 using Git for version control and JIRA for task tracking.

PROJECTS

Food Delivery Platform (Full Stack) — Personal Project

- Built a food ordering web app with a React frontend and a Spring Boot backend.
- Designed MySQL schema for restaurants, menus, orders, and payments.
- Integrated a mock payment gateway and order-status notifications.

Student Result Management System — College Project

- Java + MySQL desktop application to manage student records and grade computation.
- Implemented role-based login for admin, faculty, and student users.

CERTIFICATIONS

- Software Engineering Internship Certificate — Nimbus Cloud Solutions (2025)
- Java Programming Certification — Online course, 2024
